1. Introduction

That concludes the  $31^{st}$  season. Thanks to everyone for participating! For the awards and congratulations, see section 15 - no spoilers here! If any of you know of someone who would like to play with us, or would like to start a new team yourself, please let me know as soon as you can.

As I'm sure most or all of you know, the game system was developed by Alan Parr quite a few decades ago, and his zine Hopscotch is still going strong. He does tend to offer aggregate statistics regularly, so inspired by that, I have decided to dive into the trade values in the league system. So here's a few little nuggets of aggregate information for all of you:

The median «estimated trade value total» in the league system is a couple hundred over 20 000, with most clubs in the top two divisions being above 20 000, and most clubs in the bottom two divisions being under. The average ETVT is actually significantly higher - you can blame that on a small handful of strong clubs, and you can probably point them all out by looking at the league tables. Why is this? Well, in short, there are no hopelessly stranded clubs in the league system, so there are no clubs to significantly pull the average down to outweigh the strongest, most carefully built clubs.

It hasn't always been like this - in fact, there have been seasons where the average ETVT of the bottom half of the league system has been more than 5 000 lower than it is now. Indeed, Rosedale Open anno season 31 is a much stronger beast at the bottom half than it used to be in the past.

Next issue, you send orders for: \* nothing (issue 1 is the season kickoff issue)

Publication date for issue 1 is July 9. It might be out sooner. If you have heard nothing by the publication date, feel free to get in touch to check up on it.

I will send out your teams with issue 1.

2. Broadcast messages

Jed Stone, Frillby United: «Slartybartfast's pitch.

In the silence of the night a small group of super intelligent beings are having a conversation under a starry sky. They are by far the four most intelligence beings on the planet. It is safe to say that they are so intelligent it is impossible for the human mind to even start to comprehend just how staggeringly intelligent they really are. For the last three hours they have been discussing superior high mathematical problems while doing the Times crossword in Chinese and washing their socks. The security patrol has passed the group three times and has failed to register their presence. This is not surprising as all four are small protrusions into this dimension of vast hyper intelligent pan-dimensional beings and their voices are pitched well beyond the range of human hearing. As their meeting draws to a close, they relax and discuss their favourite past time, football. If you could hear and understand their parting words they would be something like -

Allgarh -I do not understand their fixation with aliens playing in their football teams. An Octopus as a goalkeeper!! I ask you!!

Bezruth - It is an uncouth primitive pastime well below our intellectual level.

Carvxyt - We merely attend their matches to observe. In an official capacity as Philosophers of Human Nature of course.

Duuploxz - We are always present though not as players. We attend only to observe. I. Myself, have not missed a single match all season and not one human is any the wiser. Allgarth - That is because when it comes to alien life forms, they cannot see what is right under their pointy noses. Bezruth - Attention please! The Outer Rings of Saturn Cup Final is due to start in 3 enons. We had better slip dimensions, or we will miss the start. With that the two white mice known as Frankie Mouse and Benjamin Mouse reverted to their secondary forms of existence and scurried away to find something to eat while the goal posts at either end of the pitch resumed their existence as goalposts and did nothing. The end....or is it??»

Serial Killers - Twin Peaks Owls 3 : 2
Scorers: Samuel Little (3.), Willy Pickton (73.), Simon Bingelheim (52.) \*\*\*

Booked: Samuel Little \*\*\*Nadine Hurley
A long standing tradition falls! It's been Rosedale Open custom that Serial Killers
can be lucky at any point in the cup, except in the final, where they are always to
lose. But here, with a slight upper hand, they claimed the double against worthy
opposition. Perhaps this new computer is more favourable to the idea of Serial
Killers as cup winners.

15. Award ceremony and taxes

The 31st season is over, and here are the awards!

There may be some extra promotions/survivals due to teams coming and leaving. You'll see in issue 1 where your teams will play.

Before I get to the regular awards and congratulations, let me announce a special award that's happening. I have decided to award the Shakespeare Award, and you can probably guess who is the deserving winner of that one. The sheer magnitude, reliability and eloquence with which the Frillby United press releases have been delivered with are nothing short of stunning. For years, Jed Stone has provided me with good reading in my own zine, and I think it's about time to give proper recognition for that. Hence the Shakespeare Award which consists of a virtual trophy, an equally virtual «get-out-of-intergalactic-highway-construction-free» card and a cash bonus of 1564 kKj paid to the balance of Frillby United. Thank you and congratulations!

And with that, let me move on to this season's stellar performances:
