1. Introduction

After some technical issues on the server side, I released a new version of the game client, and that seems to consistently work. The old version works some of the time (I'm not sure why), and there's no difference for me which version you use as long as you manage to download the data from the server. If the program fails to download, it will give you a small popup message, and also prompt you to enter your opponent and home/away for your league matches, so it should be easy to tell. Feel free to keep me updated with any developments here. There's nothing I can do to affect whether the old version works with the server, but certainly if you have any issues with the new version, do let me know.

With the technical difficulties and troubleshooting, the issue is late, so I have pushed the schedule back accordingly.

The early deadline for issue 11 is Friday October 5, at 21:30 CET. It's always Fridays at 21:30 CET.
The deadline for issue 11 is Friday October 12, at 21:30 CET. It's always Fridays at 21:30 CET.
Publication date for issue 11 is Wednesday October 24. It might be out sooner.

If issue 11 is out on time, the deadlines for issue 12 will be November 2 and 9. If you have heard nothing by the expected publication, feel free to get in touch to check up on it.

Next issue, you send orders for:
* match days 19 and 20 in the league (see section 12)

This round, the home advantage increases to 9 VP. The home team is listed first in the league schedule. All cup games are on neutral field (no home advantage).

In addition, as always, you send coaching. Optionally, you can also discover talents and buy/sell players.

By the time you read this, I have already sent out your teams.
